

Global Ageing Network Ageing Care & Services Principles

To Advance the Interests of Consumers:

1. The Global Ageing Network supports access to full continuum of affordable housing, health and human services that meet the changing needs and preferences of older adults.
2. The Global Ageing Network supports the ultimate goal of enabling older adults to age successfully in communities of their choice.
3. The Global Ageing Network believes that ageing individuals have the right to dignity, equity, non-discrimination and cultural sensitivity as they access services.
4. The Global Ageing Network promotes shared decision-making between the provider, client, and family, putting the client first.

To Ensure Access to Quality of Care and Services:

1. The Global Ageing Network supports the development of a quality ageing services workforce that is well trained, culturally sensitive, and paid a living wage, in order to deliver quality care to sustain quality of life.
2. The Global Ageing Network encourages providers to utilize reliable and valid data indicators to monitor and evaluate the accessibility, affordability, quality, and impact of services they provide.
